

Position Description

Developer

Reporting to Lead Developer

Technology

Developer

1. Position Summary

Working within the Technology team at OneStop, as a Developer, you will be responsible to develop, deliver and support full-stack software solutions. You will be working with the Lead Developer and be involved with planning, designing and maintaining the software in line with OneStop product delivery frameworks, standards and guidelines.

2. Key Responsibilities

- Development of new and existing product in your portfolio
- Ensuring development work is completed as specified in a bug-fix, Request-For-Change or design specification
- Ensure high quality standards of delivery, by analysing industry patterns, practices, reviews, documentation, and usage of unit testing frameworks
- Contribute to and maintain the standards of development for OneStop products
- Ensure unit and automated testing practices are maintained and implemented into the CI/CD pipeline for any release into production
- Provide third level support for Service Delivery
- Research and investigate new technologies and programming languages to advance OneStop systems into the future
- Work closely with Business Analysts to assist with implementing suitable solutions for our customers in a timely manner
- On occasion, provide out of hours on-call support for the OneStop applications regarding scheduled or unscheduled issues and outages.
- Proactively identify inefficiencies in the applications and work on ways to improve them
- Provide sufficient handover and documentation of development changes to the Systems, Test and Service Delivery teams.

3. Selection Criteria

Technical

- 3+ years working experience using Microsoft technology stack
- Experience with Microsoft ASP.Net and .NET framework (C#/VB.NET)
- Experience with .NET Core
- Experience with developing Web API and Microservices
- Experience with working on front end technologies such as AngularJS/React
- Experience with version control and CI/CD pipelines (GIT, DevOps)
- Database SQL skills (Oracle/ SQL Server/NoSQL)
- Knowledge of development patterns & practices
- Automated Unit testing experience
- A degree or equivalent experience in Computer Science

Desirable

- Experience with Cloud technology (Azure/AWS)
- Unix and/or Windows scripting

Behavioural

Action oriented (2) - taking on new opportunities and tough challenges with a sense of urgency, high energy, and enthusiasm

- Readily acts on challenges, without unnecessary planning
- Identifies and seizes new opportunities
- Displays a can-do attitude in good and bad times
- Steps up to handle tough issues

Communicates effectively (7) - developing and delivering multi-mode communications that convey a clear understanding of the unique needs of different audiences

- Is effective in a variety of communication settings: one-on-one, small, and large groups, or among diverse styles and position levels
- Attentively listens to others
- Adjusts to fit the audience and the message
- Provides timely and helpful information to others across the organization
- Encourages the open expression of diverse ideas and opinions

Manages complexity (8) - making sense of complex, high quantity, and sometimes contradictory information to effectively solve problems

- Asks the right questions to accurately analyse situations
- Acquires data from multiple and diverse sources when solving problems
- Uncovers root causes to difficult problems
- Evaluates pros and cons, risks, and benefits of different solution options

Customer focus (11) - building strong customer relationships and delivering customer-centric solutions

- Gains insight into customer needs
- Identifies opportunities that benefit the customer
- Builds and delivers solutions that meet customer expectations
- Establishes and maintains effective customer relationships

4. General

All OneStop team members are required to:

1. Demonstrate our OneStop values:

We are Purposeful.

We are deliberate, well planned and intentioned in our approach to all that we do.

We are Inventive.

We bring fresh thinking to problem solving - developing creative, original and resourceful solutions to achieve our goals.

We make things Simple.

We unpack the complex world of logistics to find the simplest tech to drive the most effective outcomes.

We Achieve Together.

We are service oriented, focused on anticipating, recognising and meeting our customer needs by placing client success at the heart of all actions.

2. Act in accordance with our OneStop Code of Conduct.

3. Undergo a police background check upon commencement.
